# Battery Life & Power Consumption

Testing Adapted to Use Case

- Evaluation of battery life / power consumption in different scenarios following procedures in GSMA TS.09 and TS.40 documents

- Scenarios
    - Idle
    - Power saving mode
    - SW upgrading
    - Data transfer

- Applicable to
    - Removable and non removable batteries
    - Main and backup batteries

- All radio technologies supported by the device are subject to evaluation

Offered in partnership with Deutsche Telekom IoT

Price: from 2400 €

Advanced technological services worldwide to ensure the safety, security, interoperability, compliance, and reliability of IoT products.
