

3D Laser Scanning

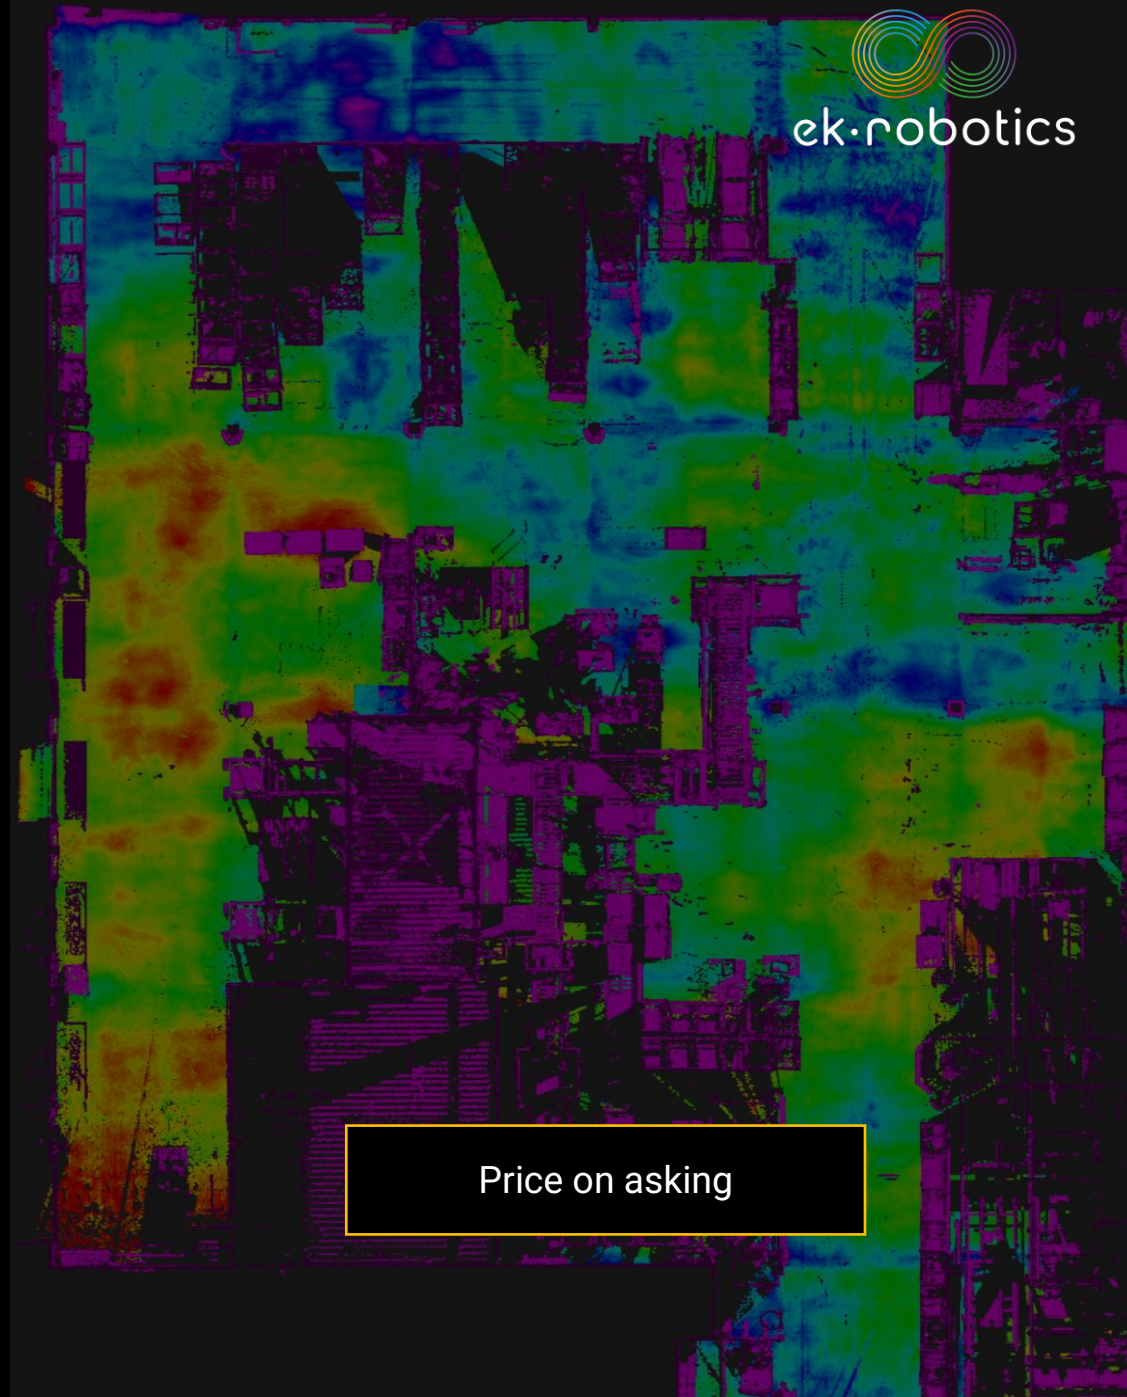

CUSTOMER SPECIFIC • Avoid cost intensive corrections in early planning phases

With the 3D point cloud by laser scanning, we create an exact copy of your factory environment and make it visible to you with a realistic image. On this basis, we determine the best possible process optimisation for you.

RESULTS:

- Complete digitalization of the factory environment
- Reliable and comprehensive measurements
- Precise and overall view floor analysis (every hole is visible)

Offered in partnership with Deutsche Telekom IoT
