

Consulting of Antenna Performance and Certifications

Verkotan offers both standardized and tailored antenna measurements to fulfil your needs. With our antenna measurement and antenna consulting services you can get:

- Complete information out of your antenna's wireless performance
- Experts' opinion on how to improve the performance and SAR values.

After you send Verkotan your product data, a meeting will be arranged. Consultancy meeting with Verkotan's technical experts costs **990€**.

After the meeting you will have:

- Comprehensive list of actions how the wireless quality and performance of your product can be improved.
- Verkotan will also provide you with a test plan to ensure your product fulfills the requirements set by various operators.
