SCD Journey
Workshop Agenda

conplement
the digital enablers

State the obvious

- Your planned use cases
- Your value chain
- Your product lifecycle
- User & Systems – "What are the current touchpoints?"
- Identify current pain points & desired goals in the value chain and business model
- Which data is available or could be retrieved?
- Identify hidden data silos & lacks in data availability

Inspiring

- What's happening outside your company / your industry?
- Typical architecture of a future ready (smart connected) data ecosystem

Value discovery

- Optimize & create additional value
- What does "From data silos to AI supported analytics …" mean for your company?
- Needs of your customers & your devices
- Which data is relevant for your use cases?
