

# Quectel BG95xA-GL Series

## Ultra-Compact LTE Cat M1/NB1/NB2\* Modules

BG95xA-GL series modules are ultra-compact LPWA modules with an integrated GNSS engine, which supports LTE Cat M1 and LTE Cat NB1/NB2\* bands. The modules are fully compliant with 3GPP E-UTRA Release 13/14\* specification and provide global carrier band combinations. The modules feature the MIPS 5150 processor and the ultra-low power consumption by leveraging the integrated RAM and flash to achieve extremely low current consumption in various standby/hibernation modes, including 3GPP PSM and eDRX. In addition, the BG95xA-GL series modules contain a GNSS and cellular-based location engine that supports GPS, GLONASS, Galileo, Beidou and QZSS. BG95xA-GL series modules come in two variants: BG950A-GL and BG951A-GL.

The BG95xA-GL series modules boast a comprehensive hardware-based security feature - Integrated Security Elements (ISE). With an ultra-compact SMT form factor of 19.9 mm × 23.6 mm × 2.2 mm and a high integration level, the modules enable integrators and developers to design applications easily leveraging the modules' low-power consumption and compact structure. The BG95xA-GL's advanced LGA package allows for fully automated manufacturing required for large-scale applications.

A rich set of Internet protocols, industry-standard interfaces and abundant functionalities extend the applicability of the modules to a wide range of M2M applications, such as wireless POS, smart metering, tracking, wearable devices, and many more.

### Key Features

- ✓ Extremely compact LTE Cat M1/NB1/NB2\* module with ultra-low power consumption
- ✓ Integrated RAM and flash
- ✓ Super slim profile in the LGA package
- ✓ Embedded with abundant Internet service protocols
- ✓ Support for VoLTE\* (Cat M1 only), QuecLocator®, and DFOTA
- ✓ A rich set of external, multi-band interfaces that ensure convenient applications
- ✓ Fast time-to-market: reference designs, evaluation tools and timely technical support minimize time and efforts in design and development
- ✓ Robust mounting and interfaces
